

Tour to Galicia - July 2003:

We went on a nine-concert tour to Spain on invitation of the Mascato Group in Walvis Bay and Vigo. The Mascato Youth Choir were invited to tour Spain and they invited the Marimbas to join them to accompany the choir during their second half of their program. Mainly the traditional music.

This tour was once again an experience for us that cannot be described in words. The hospitality of the people of Galicia was extraordinary. The Lloves family did receive us with open arms and with their friends we had a wonderful tour. This included nine concerts and many sight

seeing tours. Even a live performance on a very popular TV show "LUAR". There was ample time for new adventures, relations and discoveries.

During our fourteen - day visit we visited many beautiful places and had much exposure. The people of Galicia were very helpful and friendly. We saw many historical buildings and visited museums and various educational places.

We stayed the whole time in Vigo. To all our friends in Galicia a big thank you for all your support and friendliness. It is highly appreciated.
